Activities Permitted

In pursuance of the powers conferred on it by the Waste Management Acts, 1996 to 2003 and the Waste Management (Permit) Regulations, 1998, Cork County Council grants this waste permit under Article 5(1) of the said Regulations to Glyntown Enterprises Ltd, 7 Glyntown Heights, Glanmire, Co. Cork to carry on, the waste activities listed below at, Unit 1, Jimmy Barry Motors Warehousing, Colomane, Bantry, Co. Cork subject to nine conditions, with the reasons therefor set out in the permit.

Permitted Waste Activity in accordance with Part 1 of the First Schedule of the Waste Management (Permit) Regulations, 1998:

- Activity 5: The recovery of waste (other than hazardous waste) at a facility (other than a facility for the composting of waste where the amount of compost and waste held at the facility exceeds 1000 cubic metres at any time).*
- Activity 6: The disposal of waste (other than hazardous waste) at a facility (other than a landfill facility) where the annual intake does not exceed 5,000 tonnes per annum.*

Permitted Waste Recovery Activity, in accordance with the Fourth Schedule of the Waste Management Acts, 1996 to 2003:

- Class 2: Recycling or reclamation of organic substances which are not used as solvents (excluding composting and other biological processes)*
- Class 3: Recycling or reclamation of metals and metal compounds.*
- Class 4: Recycling or reclamation of other inorganic materials.*
- Class 13: Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary, pending collection, on the premises where such waste is produced.*

Permitted Waste Disposal Activity, in accordance with the Third Schedule of the Waste Management Acts, 1996 to 2003:

- Class 12: Repackaging prior to submission to any activity referred to in this Schedule.*
- Class 13: Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.*

CONDITION 1: SCOPE

- 1.1 This waste permit is issued under the Waste Management (Permit) Regulations, 1998 to Glyntown Enterprises Ltd, 7 Glyntown Heights, Glanmire, Co. Cork in respect of a facility at Unit 1 Jimmy Barry Motors Warehousing, Colomane, Bantry, Co. Cork. This permit is strictly non-transferable.
- 1.2 This waste permit is granted for a period not exceeding 3 years from the date of issue.
- 1.3 The Permit Holder shall give notice in writing to Cork County Council of any significant changes in the information furnished in the application for the permit. Such notice shall be given within three weeks of any such change arising. On receipt of this information, Cork County Council may require a new waste permit application to be submitted.
- 1.4 The Permit Holder shall ensure that the waste activities shall take place only as specified under the conditions of this permit. No change in the type of waste accepted or the type of activities undertaken shall be made without prior written approval from Cork County Council.
- 1.5 The Permit Holder shall be responsible for ensuring that the waste activities shall be controlled, operated and maintained in strict accordance with the terms of the application as modified and/or controlled by the conditions attached to this permit.
- 1.6 Where Cork County Council considers that a non-compliance with the conditions of this permit has occurred, it may serve a notice on the permit holder specifying;
 - (a) that only those wastes as specified, if any, in the notice are to be accepted at the facility after the date specified in the notice; and,
 - (b) that the permit holder shall undertake the works stipulated in the notice, and/or otherwise comply with the requirements of the notice as set down therein, within any time-scale contained in the notice.

When the notice has been complied with, the permit holder shall provide written confirmation to the local authority that the requirements of the notice have been carried out. No waste, other than that which is stipulated in the notice, shall be accepted at the facility until written confirmation is received from the Council that the notice is withdrawn.

1.7 The Permit Holder shall comply at all times with the provisions of the Community Acts detailed in the table below, insofar as such provisions are relevant to the waste activity to be carried out:

Relevant Provisions	Community Act
Article 9 and 14	Council Directive 75/442/EEC of 15 July 1975 on waste, as amended by Council Directive 91/156/EEC of 18 March, 1991.
Articles 4, 5, 8, 9, 10 and 18	Council Directive 80/68/EEC of 17 December, 1979 on the protection of groundwater against pollution caused by certain dangerous substances.

REASON: To clarify the scope of this waste permit.

CONDITION 2: MANAGEMENT OF THE ACTIVITY

- 2.1 The Permit Holder shall acquaint all staff, employees, lessees and agents, including replacement personnel, of the provisions and conditions of this permit.
- 2.2 The Permit Holder shall ensure that a copy of the permit shall be kept at the principal place of business and at the facility at all times.
- 2.3 The Permit Holder shall ensure that the site shall be adequately manned and supervised when in use. It shall be maintained to the satisfaction of Cork County Council, and adequate precautions shall be taken to prevent unauthorised access to the site.
- 2.4 The Permit Holder shall ensure that the hours of operation shall be 8.00a.m. to 6.00p.m, Monday to Saturday inclusive. This condition may be review by the Permitting Authority at any time.
- 2.5 No waste activities are permitted on Sundays.
- 2.6 The Permit Holder shall maintain a digital CCTV system on site. It shall include 2 no. CCTV cameras on the site. The cameras shall be positioned such that all vehicles entering the facility are recorded on both cameras. In addition one of the cameras shall be positioned such that it views both the entrance to the facility and the other CCTV camera. The CCTV cameras shall record time and date and all footage recorded shall be maintained on site for a period of 3 months. The Permit Holder shall make external access to recording equipment by telephone available to Cork County Council if required.
- 2.7 The Permit Holder shall ensure that the annual intake of waste shall not exceed **5,000 tonnes**.
- 2.8 The Permit Holder shall ensure that any access point shall be locked when there is no site supervisor present at the facility. Drivers of waste delivery vehicles are not deemed site supervisory staff.
- 2.9 The Permit Holder shall prepare written operating instructions and procedures in respect of waste control to assist personnel with responsibility in this area. These procedures shall be made available to the Permitting Authority on request.
- 2.10 The Permit Holder shall provide adequate training to employees with responsibilities in the waste control area to enable them to execute their tasks in relation to pollution control and compliance with this permit.
- 2.11 The Permit Holder shall establish procedures to ensure that corrective action is taken should any condition of this permit not be complied with. The procedures shall define responsibility and authority for initiating further investigation and corrective action in the event of a reported non-conformity with this permit. The

Permit Holder shall notify Cork County Council immediately by telephone/fax, and full details shall be forwarded on writing on the next working day of any breach of the permit.

- 2.12 The Permit Holder shall ensure that adequate fire extinguishers and emergency response equipment shall be maintained on site.
- 2.13 Fires shall not be permitted on the site. Any outbreak of fire shall be considered an emergency and a notifiable incident. If the fire (or emission of smoke) continues for longer than 30 minutes, the Permit Holder shall arrange to have it extinguished by the Local Authority Fire Brigade at the Permit Holders expense.
- 2.14 Waste shall only be accepted at the site when carried by permit holders/waste collectors/carriers authorised in accordance with the Waste Management Act, 1996 to 2003 and Waste Management (Collection Permit) Regulations 2001 or else persons exempted from holding waste collection permits.
- 2.15 The Permit Holder shall provide a weighbridge at the facility if required by the permitting Authority. Full details shall be submitted and agreed with the Permitting Authority in advance.

REASON: To make provision for the proper management of the activity.

CONDITION 3: NOTIFICATION AND RECORD KEEPING

3.1 All communications with Cork County Council shall be addressed to The Environment Department:

Address:

Cork County Council,
Environment Department,
Inniscarra,
Co. Cork.

Telephone Number (normal working hours) 021- 4532700

Fax Number:

~~021-4532777~~
021-4572727

3.2 The Permit Holder shall keep the following documents at the facility:

- a) The current waste permit relating to the facility;
- b) Any previous waste permit relating to the facility;
- c) The previous year's Annual Environmental Report for the facility;

All written procedures produced by the permit holder, which relate to the permitted facility.

3.3 The Permit Holder shall maintain a register of the following records in respect of each consignment of waste arriving at the facility:

- a) The names and collection permit numbers of the carriers and the vehicle registration numbers including trailer registration number for articulated vehicles.
- b) The name(s) of the producer(s) of the waste as appropriate, the source of the waste;
- c) A description of the waste including the associated EWC codes
- d) The quantities of wastes accepted at the site, recorded in tonnes
- e) The name of the person checking the load;
- f) The dates and times of all waste deliveries to the site.
- g) The treatment of all waste managed on the site.
- h) The quantity of waste recycled/disposed/recovered from the facility.
- i) Where loads or wastes are removed or rejected, details of the date of occurrence; the types of waste and the facility to which they were removed to;

And any information as may be requested from time to time by the permitting authority.

3.4 The Permit Holder shall maintain a register of the following records in respect of each consignment of waste departing from the facility:

- a) The names and collection permit numbers of the carriers and the vehicle registration numbers including trailer registration number for articulated vehicles.
- b) A description of the waste including the associated EWC codes.
- c) The source of the waste.
- d) The quantity of waste departing from the site, recorded in tonnes
- e) The date and time of each load of waste departing from the facility.
- f) The final destination of the load of waste, including the permit/licence number of the destination facility.
- g) Details on any recycling/recovery/reuse of the waste.
- h) The treatment of all waste managed on site.
- i) The storage details of all waste prior to departure.

And any information as may be requested from time to time by the permitting authority.

3.5 The Permit Holder shall immediately notify Cork County Council by telephone/fax of any incident which occurs as a result of the activity on the site, and which:

- has the potential for environmental contamination of surface water or ground water, or
- poses an environmental threat to air or land, or
- requires an emergency response by the Council.

Full details shall be forwarded in writing on the next working day. The permit holder shall include as part of the notification:

- the date and time of the incident,
- details of the incident and circumstances giving rise to it,
- an evaluation of environmental pollution caused, if any,
- actions taken to minimise the effect on the environment,
- steps taken to avoid reoccurrence,
- any other remedial action taken.

The Permit Holder shall make a record of any such incident in a register to be kept at the principal place of business.

3.6 The Permit Holder shall maintain on the principal place of business a register of all complaints received relating to the operation of the activity. Each such record shall give details of the following:

- Time and date of the complaint.
- The name of the complainant.
- Details of the nature of the complaint.
- Actions taken to deal with the complaint, and the results of such actions.
- The response made to each complainant.

The permit holder shall immediately notify Cork County Council by telephone/fax after the receipt of the complaint, and full details shall be forwarded in writing on the next working day. The permit holder shall make a record of any such complaint in a register to be maintained.

3.7 The permit holder shall make all records available to Cork County Council staff and to the public at all reasonable times, and shall provide any relevant information when so requested by an authorised person of Cork County Council.

3.8 The permit holder shall notify Cork County Council, in writing, within 7 days of:

- The imposition of any requirement on the permit holder by order under Section 57 or 58 of the Waste Management Acts 1996 to 2003, or
- Any conviction of the permit holder for an offence prescribed under the Waste Management Acts, 1996 to 2003.

3.9 The permit holder shall submit to Cork County Council, an Annual Environmental Report (AER) for the preceding calendar year by no later than February 28th of each year. The AER will include details of:

- (a) any impositions or convictions imposed as outlined above;
- (b) reporting period
- (c) waste activities carried out at the facility and quantity/composition of all wastes accepted and recovered at the facility during the reporting period and each previous year;
- (d) any loads rejected at the facility during the year;
- (e) reportable incidents;
- (f) all complaints
- (g) all monitoring carried out in the previous year
- (h) any other items specified by the permitting authority
- (i) management and staffing structure of the facility

In addition, the permit holder shall include in the report, a written summary of compliance with all of the conditions attached to this permit.

3.10 Within one month of waste activities ceasing on the site, the permit holder shall submit a report to Cork County Council which shall include the information contained in the registers described above, and details of any impositions or convictions imposed under the Waste Management Acts, 1996 to 2003. In addition, the permit holder shall include in the report a written summary of compliance with all of the conditions attached to the permit.

REASON: To provide for the notification of incidents, to update information on the activity and to provide for the keeping of proper records.

CONDITION 4: SITE INFRASTRUCTURE

- 4.1 The Permit Holder shall erect warning/safety signs as per the Traffic Signs Manual (DOE) on the approaches to the site entrance. The type and location of these signs shall be agreed with Cork County Council's area engineer. The Permit Holder shall bear the cost of the supply, erection and termination of these signs. This work shall be carried out immediately on granting of the Permit.
- 4.2 All access and site layout arrangements shall be agreed with the Local Area Engineer (in this instance Bantry Area Engineer, Area Engineer's Office, Bantry, Co. Cork).
- 4.3 Within 2 months of the date of the grant of this permit, the Permit Holder shall have an information board erected at the entrance to the site. The minimum dimensions of the information board shall be 1200mm by 750mm. The board shall show:
- (i) The name, address and telephone number of the facility.
 - (ii) The waste permit reference number.
 - (iii) Emergency contact number outside of operating hours.
- 4.4 The entrance doors to the facility shall be kept locked shut when the facility is unsupervised.

REASON: In the interest of safety for other vehicular traffic

CONDITION 5: WASTE ACCEPTANCE AND HANDLING

5.1 The following material may be accepted on the site:

Paper and Card

- 15 01 01 Paper and cardboard packaging**
- 19 12 01 Paper and Cardboard**
- 20 01 01 Paper and Cardboard**

The quantity of wastes referred to above shall not exceed **1,000 tonnes per annum in total.**

Plastic

- 15 01 02 Plastic packaging,**
- 19 12 04 Plastic and Rubber**
- 20 01 39 Plastics**

The quantity of wastes referred to above to be managed at this facility shall not exceed **250 tonnes per annum in total.**

Metal

- 15 01 04 Metallic packaging**
- 19 12 02 Ferrous Metals**
- 19 12 03 non Ferrous Metals**
- 20 01 40 Metals**

The quantity of wastes referred to above to be managed at this facility shall not exceed **50 tonnes per annum in total.**

Please note EWC is an abbreviation for European Waste Catalogue

The quantity of wastes referred to above, to be managed at this facility, may be reviewed by the Permitting Authority at any time.

No other waste types are permitted to be managed at this facility other than wastes that the Permitting Authority may approve in writing from time to time.

The Permit Holder shall ensure that adequate steps are taken to prevent acceptance of any other waste types at the facility.

5.2 The Permit Holder shall ensure that himself, his staff, his employees or agents shall subject all waste arriving at the facility to a visual inspection. The Permit Holder shall remove materials other than those permitted immediately from the site. The Permit Holder shall dispose (or recover) such waste at an alternative facility with an appropriate waste permit or waste licence. Following delivery of such unauthorised waste to the site, the Permit Holder shall ensure that Cork County

Council is immediately notified by telephone/fax, and full details shall be forwarded in writing on the next working day.

- 5.3 The Permit Holder shall ensure that adequate steps are taken to prevent unauthorised entry of wastes to the site. The permit holder shall make provisions to control access to the facility, and to prevent the fly tipping of waste. Such provisions shall be to the satisfaction of the Permitting Authority.
- 5.4 The Permit Holder shall remove immediately any waste placed on or in the vicinity of the facility other than in accordance with the requirements of the permit. If such waste is discovered it shall be taken to a facility with a waste licence or waste permit authorising acceptance of such waste.
- 5.5 The Permit Holder shall recycle or recover all waste in so far as is practicable. All waste management options utilized shall be agreed in advance with the Licensing Authority. Residual wastes shall be disposed of only to permitted or licenced facilities.
- 5.6 The Permit Holder shall ensure that while awaiting disposal, all wastes (including wastes in vehicles/skips) and by-products shall be collected and stored inside the building on impermeable surfaces (constructed in accordance with the relevant standards) in designated areas protected against spillage and leachate run-off. Skips containing putrescible wastes shall be covered when not actively in use inside the building. This condition is subject to review by the Permitting authority at any time.
- 5.7 The Permit Holder shall examine and certify each consignment of waste to be accepted at the facility as complying with European Waste Catalogue code references set down in Condition 5.1.
- 5.8 The Permit Holder shall not store or handle waste outdoors. This condition is subject to review by the Permitting Authority at any time.

REASON:	To provide for the acceptance and management of wastes authorised under this waste permit.
----------------	--

CONDITION 6: NUISANCES, EMISSIONS AND ENVIRONMENTAL IMPACTS

- 6.1 The permit holder shall ensure that the waste activities on the site shall be carried out in such a manner so as not to have an adverse effect on the drainage of adjacent lands, on watercourses, on field drains or on any other drainage system.
- 6.2 The permit holder shall take adequate precautions to prevent undue noise, fumes, dust, grit, untidiness and other nuisances including vermin during the course of the works which would result in a significant impairment or a significant interference with amenities or the environment beyond the site boundary. If unacceptable levels of noise, fumes, dust or grit occur, the permit holder shall abide by the Council's abatement requirements, which may include immediate cessation of operations.
- 6.3 The permit holder shall take adequate steps to ensure that no material of any sort can fall or be blown from vehicles delivering waste to or taking waste from the site.
- 6.4 The permit holder shall take adequate steps to ensure that vehicles entering or exiting the site do not deposit material of any sort onto the roadway or adjoining lands.
- 6.5 The permit holder shall be responsible for the control of litter in the vicinity of the facility unit. The unit perimeter shall be inspected daily for the presence of litter and the permit holder shall remove all litter from the site and its environs immediately.
- 6.6 The Permit Holder shall ensure no waste is burned on site.
- 6.7 The Permit Holder shall ensure that no nuisance shall be caused from vermin from the facility arising out of the facility operations. Control of vermin shall be to the satisfaction of the Permitting Authority.
- 6.8 The permit holder shall ensure that any tank storage areas and any drum storage areas shall be rendered impervious to the materials stored therein. In addition, storage tank areas shall be bunded, either locally or remotely to a volume of 110% of the largest tank within each individual bunded area. Drum storage areas shall be bunded to a volume equal to a 110% of the sum of the volumes of the ten largest drums likely to be stored therein. The height of the bund for any drum storage area shall be not less than 300mm. A Chartered Engineer shall certify the results of these tests.
- 6.9 The integrity and water tightness of any bunded structures and concrete structures and their resistance to penetration by water or other material stored therein shall be tested and demonstrated by the Permit Holder to the satisfaction of the Local Authority. Testing shall be carried out by the Permit Holder at least once every 3 years thereafter and reported to the Permitting Authority on each occasion. A Chartered Engineer shall certify the results of these tests.

- 6.10 The permit holder shall take adequate steps to minimise noise from the development and shall have regard to BS 5228, 1997 Noise Control on Construction and Open Sites. During permitted operating hours **noise levels shall not exceed 55 dBA (Leq)** inclusive of 5dBA penalty for tone or impulse if appropriate. In order to assess compliance with the noise limits, Cork County Council may require that noise measurements be taken in accordance with ISO1996/1–Acoustics–Description and Measurement of Environment Noise Part 1 and Part 2. In addition, appropriate penalties for tonal and impulsive elements shall be applied to the measured L_{Aeq} values in accordance with Section 4 of ISO 1996/2, to determine the appropriate rating level (L_{AFT}). Noise shall not exceed 45dBA at any other time. At no time shall the noise generated on site resulting an increase in noise level of more than 10dBA above background levels at the boundaries of adjoining premises. Background noise level shall be interpreted as the mean minimum sound level at the relevant place and time in absence of noise from the premises the subject of the application. If noise contains a discrete, continuous tone (whine, hiss, screech, hum etc), or if the noise is irregular enough in character to attract attention, a penalty of +5 dBA will be applied to the measured noise and this increased level shall be used in checking compliance with the specified levels.
- 6.11 All direct discharges of List 1 and List 11 substances as specified in Directive 76/464/EEC to surface or groundwaters are prohibited.
- 6.12 The Permit Holder shall ensure that the layout of the site shall be as indicated in the drawings accompanying the waste permit application submitted to the permitting authority or save in accordance with prior written consent of Cork County Council.
- 6.13 Any water drained from hardstanding areas or parking areas, contaminated with hydrocarbons discharging to onsite soakways, watercourses or stream shall discharge via a grit trap and Class 1 coalescing hydrocarbon interceptor. An inspection chamber with a sump shall be constructed between the interceptor and the stream. The sump shall be of a minimum size of 500mm square and 400mm deep. The interceptor and sump shall be installed and operated to the satisfaction of the Permitting Authority. The permit holder shall undertake an inspection of the interceptor traps monthly and shall maintain a register of the outcome of such inspections.
- 6.14 The Permit Holder shall ensure that operations on site shall be carried on in such a manner that no polluting material or contaminated surface water enters any watercourse, bored well, storm sewer or public roadway.
- 6.15 In the event of odour complaints arising in relation to the site, the Local Authority may direct that certain waste types not be managed on site. The Permit Holder shall comply with any such direction forthwith.

REASON: To ensure compliance with the requirements of the conditions of this permit.

CONDITION 7: ENVIRONMENTAL MONITORING

- 7.1 The Permit Holder shall ensure that authorised staff of Cork County Council shall have unrestricted access to the site at all reasonable times, on production of identification, for the purpose of their functions under the Waste Management Acts, 1996 to 2003, including such inspections, monitoring and investigations as are deemed necessary by the Council.
- 7.2 If so requested by Cork County Council, the permit holder shall, at his own expense, carry out such further investigations and monitoring of the facility as required by the Council. The scope, detail and programme, including report structure and reporting schedule, for any such investigations and monitoring shall be in accordance with any written instructions issued by the Council. In the event of pollution of waters in the vicinity of the site, or of a leachate discharge onto adjoining lands, input of waste onto the site shall cease, and remedial measures shall be carried out immediately as directed by the Council.
- 7.3 The permit holder shall ensure that an Emergency Response Procedure is in place that lists any potential environmental risks and provides adequate controls to minimise any environmental pollution, this shall include for worst-case scenario events.
- 7.4 Dangerous substances. This permit does not permit the discharge of compounds listed in Water Quality (Dangerous Substances Regulations) S.I. 12, 2001 from any operation arising on this site

REASON: this permit	To ensure compliance with the requirements of the conditions of
-------------------------------	---

CONDITION 8: CHARGES AND FINANCIAL PROVISIONS

- 8.1 The permit holder shall pay to Cork County Council an annual contribution of €1,000, which is Consumer Index Linked towards the costs incurred by the Council of monitoring the activity, to the extent that it considers necessary for the performance of its duties under the Waste Management Acts, 1996 to 2003. This payment is non-refundable. The Permit Holder shall in 2005 and subsequent years, not later than the 31st of January of each year, pay to the Council this amount updated annually in accordance with changes in the Consumer Price Index. The Council shall notify the updated amount to the Permit Holder. The Council shall notify the updated amount to the Permit Holder. For 2005, the Permit Holder shall pay a pro rata amount from the date of this permit to the 31st of December 2005. This amount shall be paid to the Council within one month of the date of grant of this permit.
- 8.2 In the event that the frequency or extent of monitoring or other functions carried out by the Cork County Council need to be increased, the permit holder shall contribute such sums as are determined by the Council to defray its costs.

REASON: To provide for adequate financing for monitoring measures to protect the environment.

CONDITION 9: ADDITIONAL STATUTORY REQUIREMENTS

9.1 The granting of this permit, and any condition imposed by it, does not exempt the holder of the permit from complying with the statutory obligations of any relevant legislation, including:

Planning legislation
Waste and litter
Air pollution
Water pollution,
Health and Safety,

REASON: In order that all statutory obligations are met.

RE: Waste Management (Permit) Regulations, 1998.

Ref. No. CK(S) 182/04

A Chara,

I enclose herewith a waste management permit in respect of your facility at:

***Jimmy Barry Motors Warehousing
Colomane
Bantry, Co. Cork***

Please note that it is a condition of your permit that a contribution of €1,000 is made towards the monitoring costs incurred by Cork County Council.

This amount should be submitted to the Environment Department, Inniscarra Offices, Inniscarra, Co. Cork within a month of the date of issue of your permit.

Mise le meas,

Brian McAleer
ENVIRONMENT DEPARTMENT
